SUMMARY

I am a proactive and skilled individual with a Bachelor of Technology degree from Ajay Kumar Garg Engineering College, Ghaziabad. With a strong academic background and a passion for technology, I have undertaken various projects and certifications in web development, including token-based authentication, microservices, digital libraries, and image search applications. My participation in competitions like Anveshna and Bit Box 3.0 showcases my enthusiasm for innovation and problem-solving. Proficient in front-end technologies such as HTML, CSS, JavaScript, React, and Bootstrap, along with programming languages like Java and Python, I am also well-versed in machine learning and deep learning. With a commitment to excellence, I am eager to contribute my skills and expertise to impactful projects in the tech industry.
